

ULTRA-LITE doors

COTTAGE COLLECTION

The Cottage Collection gives you the look of a custom wood door with the strength and durability of a steel door.

Same quality construction as our popular Thermocraft T-12 panels.

Ultra-Lite Doors is pleased to introduce our exciting new Cottage Collection series of garage doors. A maintenance-free alternative to the custom wood doors that are popular today. The Cottage Collection combines the practicality of a steel insulated door with the classic and innovative design of its wood counterpart.

AVAILABLE STYLES

Sections

1-1/8" thick sections are of a flat steel front and steel back design, with a wood grain embossed finish on the front. The steel is pre-finished white, using a baked-on polyester paint.

- Each section is filled with 100% CFC and HCFC free polyurethane insulation using a continuous computer controlled process.

R-Value of 10.4

- Wood grain, prime finished moldings 5-7/8" x 7/16"

Hardware

- Heavy duty track.
- Ball-bearing 2" nylon rollers.
- Arctic-grade perimeter weather-strip.
- U-shaped bottom weather-strip.
- Weather seals between each section.

Options

- Sealed unit windows with various grilles. (5/8" or 5/16" profiles)
- Decorative hinges and handles.
- Custom colors available, and can be professionally matched to any sample.

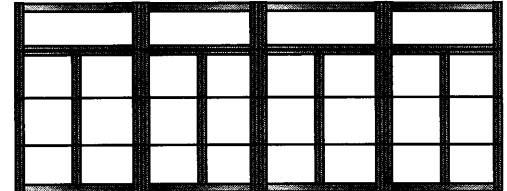

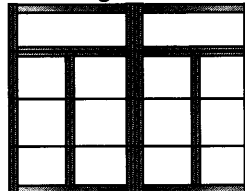

Warranty

- Our engineered products have been designed to exceed industry standards.
- A seven (7) year warranty against delaminating of the polyurethane from the steel skins of the door panel.
- A one (1) year warranty against defects in material or workmanship on hardware and parts supplied.
